**The Business Academy covers 18 business modules including...
Your business plan / Building a brand / Marketing & social media /
Knowing your numbers / Financial / Customer excellence & more...**

"The Made in Bury Business Academy has been one of the best decisions I made for my business. The course has been fabulous and has really made me stretch myself to think about what I want from my business in terms of development and expansion, but also around the whole ethos behind the services I provide.

The best thing about the academy though has to have been the support I have received from both Debi and Phil and from the other members of the academy. As a group we have shared our successes, our highs, our lows and really looked after each other. We have shared our skills to benefit one another and I really feel I am leaving the academy with a wealth of knowledge and some fabulous friends."
